

## AWARDS & RECOGNITION

### FULL COMPLIANCE WITH THE LAW

Management of Kirana Megatara Group (KMG) is committed to be in full compliant with national laws and regulations with regards to environmental protection. The new green standard recently issued for the crumb rubber industry by the Ministry of Industry includes the following stipulations:

- Selection of rubber raw material that is clean and free of contamination such that the minimum *dry rubber content* (DRC) is 55%.
- Electricity consumption , maximum at 175 kWh/ton;
- Water consumption , maximum at 35 m<sup>3</sup>/ton;
- Ratio of recycled water use, minimum at 25%;
- Adoption of the 3R approach: reduce, reuse, recycle;
- Level of CO<sub>2</sub> emission, maximum at 200 kg CO<sub>2</sub>/ton.

The above standards have been met or exceeded for the most part for all KMG processing factories. In addition, KMG cooperates with the Ministry of Environment over the evaluation of KMG's environmental management and its workplace health and safety
